Institute of Logistical Management

Criteria:

- No Pre-requisites, except all Students must have a minimum of High School Diploma or Equivalent and will be allowed 6 months to complete each course
- CLP must have 3 years Industry experience prior to conferring awarding of CLP and must be completed in 3 years.
- 5 Course Certification must have at least 2 years experience prior to conferring award and must be completed in 2 ½ years.
- 4 Course Certification or less must have at least 1 year experience prior to conferring award and must be completed in 2 years for 4 courses and 18 months for 3 courses.
- No experience to merely take a single course prior to conferring award.
- Each Student who achieves one or more of the ILM Certification offerings will receive the following: a Certificate of Achievement for each individual course that is satisfactorily completed, and additionally a Certificate in recognition of meeting all criteria for the area of Specialization for their Certification i.e. CLP, SCP, LP, MCP etc. The Certification is awarded without additional examinations or testing. ILM is an accredited school which will be shown on all Certificates.
- All students may elect to complete the course work in less time than allowed. Course work is independently paced by the student and the school will always accommodate the speed of the student.
- Recommended Academic Credits are generally transferable to degree-granting universities.
- All courses Articulated with University of Phoenix
- Listed in the ACE Directory (American Council on Education) of Accredited Postsecondary Institutions, in conjunction with CHEA (Council of Higher Education).
- Approved for Tuition Assistance for all Military Branches by Department of Defense, as well as VA/GI Bill benefits through VA.
- The additional Certifications offered 2/1/09, may include some courses that a student may have previously taken during the past 3 years for which they will receive full credit, without re-taking each course. However, no credits will be granted for courses taken prior to the most recent 3 years. Also, courses previously taken to attain a CLP (within the past 3 years), and/or other Practitioner certificates may not be subsequently used to satisfy the full requirements and granting of an additional Certification, without completing a minimum of 1 additional course.

▪ Students may take these courses primarily Online (and limited correspondence) for approx. \$100.00 less than the prices listed for standard distance learning courses. Contact ILM with questions on pricing.

Institute of Logistical Management

Descriptions:

Certified Logistics Practitioner (CLP)

The expression “Knowledge is Power” takes on greater importance when such knowledge can be applied to “Real World” decisions in Transportation, Logistics and Supply Chain. Since 1923 ILM and its predecessors have singularly focused on teaching the exceptional skills required to plan and execute the movement of freight, by all modes, both domestically and globally. As a CLP, a student joins an elite group of logistics individuals who can demonstrate broad Logistics leadership and outstanding competency. As an Accredited School, ILM has consistently been included among the very finest schools and universities in America providing Supply Chain/Logistics programs. The Certified Logistics Practitioner Program (CLP) reflects the highest level of academic achievement granted by ILM to enable all students to gain future career success while applying practical skills and knowledge on-the-job now.

Supply Chain Practitioner (SCP)

Gain professional recognition by expanding your knowledge and skills for upward career mobility in Logistics, transportation and supply chain. Achieve the Supply Chain Practitioner Certification while earning 15 recommended college-level academic credits. Increase your knowledge of the entire Supply Chain Process, while simultaneously specializing in the opportunities to increase your overall capabilities in Business Logistics Strategies, Inventory principles that will enable you to eliminate absolute inventory and reduce costs, along with ILM’s proprietary course in Information Technology in Supply Chain and Logistics, not available in book stores or college campuses

Logistics Practitioner (LP)

Achieve the Professional status of a Logistics Practitioner with 15 Recommended Academic Credits by focusing on some of the most critical elements in emerging Logistics processes today. Which includes Two (2) courses in Business Logistics based on textbook knowledge used at most premier Universities in America, and modified for practical, “real world” application. Utilize ILM’s proprietary texts on Information Technology in Supply Chain and Logistics, as well as benefit from course principles and case studies from Warehousing Management and Inventory Management. Choose from any of the many other courses that ILM offers, under our National Accreditation.

Motor Carrier Practitioner (MCP)

You won’t find this specialized course in Motor Carrier Transportation at any other Accredited School in the U.S. ILM searched for what we felt that Motor Carrier Professionals needed to know for practical, “real world” application and nothing met our expectations, so we authored the course ourselves. It is unique and covers nearly every topic of Motor Carrier Transportation that is not available from any other Nationally Accredited School. Earn a prestigious professional title in Motor Carrier Transportation, along with 12 recommended academic credits, plus the combination of choosing the essential integration with Freight Claims liability and/or Warehousing/Distribution Management. This is a powerful and essential combination of courses for all Motor Carrier Professionals to be more than competitive in today’s challenging environment.

▣ Students may take these courses primarily Online (and limited correspondence) for approx. \$100.00 less than the prices listed for standard distance learning courses. Contact ILM with questions on pricing.
